Application No. Applicant(s) 10/743,744 MAKIMATTILA, SIMO Office Action Summary Examiner Art Unit JARED W. NEWTON 3693 -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --Period for Reply A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS. WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). Status 1) Responsive to communication(s) filed on 14 January 2008. 2a) ☐ This action is FINAL. 2b) This action is non-final. 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213. Disposition of Claims 4) Claim(s) 1 and 14-50 is/are pending in the application. 4a) Of the above claim(s) _____ is/are withdrawn from consideration. 5) Claim(s) _____ is/are allowed. 6) Claim(s) 1, 14-50 is/are rejected. 7) Claim(s) _____ is/are objected to. 8) Claim(s) _____ are subject to restriction and/or election requirement. Application Papers 9) The specification is objected to by the Examiner. 10) The drawing(s) filed on is/are; a) accepted or b) objected to by the Examiner. Applicant may not request that any objection to the drawing(s) be held in abevance. See 37 CFR 1.85(a). Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d). 11) The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152. Priority under 35 U.S.C. § 119 12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f). a) All b) Some * c) None of: Certified copies of the priority documents have been received. 2. Certified copies of the priority documents have been received in Application No. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)). * See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

This non-final rejection is in reply to the remarks filed January 14, 2008, by which claims and claims 2-13 were canceled, and claims 14-50 were added. At the outset, it is noted that the prosecution of this application has been reassigned to Examiner Jared Newton.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 14-50 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In regard to claim 14, the limitation "determining an appropriate billing party based on passenger identification" was not described in the originally filed specification.

In regard to claim 32, the limitation "wherein an appropriate fee is assessed to each passenger upon the interaction of said reader device and said access device based on a predetermined fee schedule such that repayment costs are equitably distributed wherein said fee schedule determines the timetable for full repayment of elevator investment costs" was not described in the specification as originally filed.

Application/Control Number: 10/743,744

Art Unit: 3693

In regard to claim 40, the limitation "wherein an appropriate fee is assessed to each passenger upon the interaction of said reader device and said access device based on a predetermined fee schedule such that repayment costs are equitably distributed wherein said fee schedule determines the timetable for full repayment of elevator investment costs" was not described in the specification as originally filed.

In regard to claims 32 and 40, the specification states, "it is possible to collect reliable statistical data about use of the elevator on the basis of intensity of use, which data can be utilized e.g. in allocating the billing for the use of the elevator, in the planning of passenger-specific discounts and in access surveillance." (Specification, page 7, lines 11-19). The noted recitation, however, does not set forth sufficient detail to show that the inventor possessed the noted claim limitations at the time of the invention.

Claims 15-31, 33-39 and 41-50 are rejected under this section as they depend from claims 14, 32 and 40, respectively.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by US Patent No. 6,354,405 to Svensson-Hilford et al. (hereafter Svensson-Hilford).

Application/Control Number: 10/743,744

Art Unit: 3693

In regard to claim 1, Svensson-Hilford discloses an elevator installation system and method for making payments so that the installation can be operated as a means of transport for providing chargeable transportation services (see Abstract), wherein said repayment is based on the identification of a passenger wanting to enter the elevator (see col. 2, line 62 - col. 3, line 16), by providing the aforesaid passenger with a card comprising the personal data of the passenger (see col. 3, lines 24-35), on the basis of which card a remote reader installed in connection with the elevator identifies the passenger (see id.), characterized in that each passenger of the elevator is charged via the card for using the elevator on the basis of the number of times of use in such manner that the investment costs of the aforesaid elevator are repaid (see col. 1, line 32 – col. 2, line 5; see also, col. 1, lines 1-30).

With respect to the above rejections, the Examiner has cited particular portions of the reference(s), and although the specified citations are representative of the teachings in the art and are applied to the specific limitations within the individual claim, other passages and figures may apply as well. It is respectfully requested that the Applicant consider each cited reference in its entirety as potentially teaching the limitations of the claimed invention.

Response to Arguments

Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection. Application/Control Number: 10/743,744 Page 5

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JARED W. NEWTON whose telephone number is (571)272-2952. The examiner can normally be reached on M-F 8-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Kramer can be reached on (571) 272-6783. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
